

Smart Touch

Life Is On

Key features of Smart Touch

- True retrofit for Indian Std. boxes
- Ease of installation
- No Changing GI Boxes
- No Control Cabling
- No Extra Wiring
- 2/4/6/8 Module Box compliant
- Fixed Configurations
- LED glow for On/Off Status
- Auto-dimming of backlight
- Lights On/Off,
- Fan On/Off & 4 Level Speed Regulation
- Dedicated Master On/Off on each panel
- Remote Control Available on IR
- Wifi enabled for App integration

Key features

- Separate connectors for Phase & Neutral
- Pre-wired looping
- Exactly similar wiring to Modular Switch Panel
- Fuse (1.5A) for protection of electronic circuitry
- Ventilation for heat dissipation

Key features

- Shock proof
- Illuminated Switches
- Sleek modular backend
- Easy cleaning and maintenance
- No mechanical wear and tear

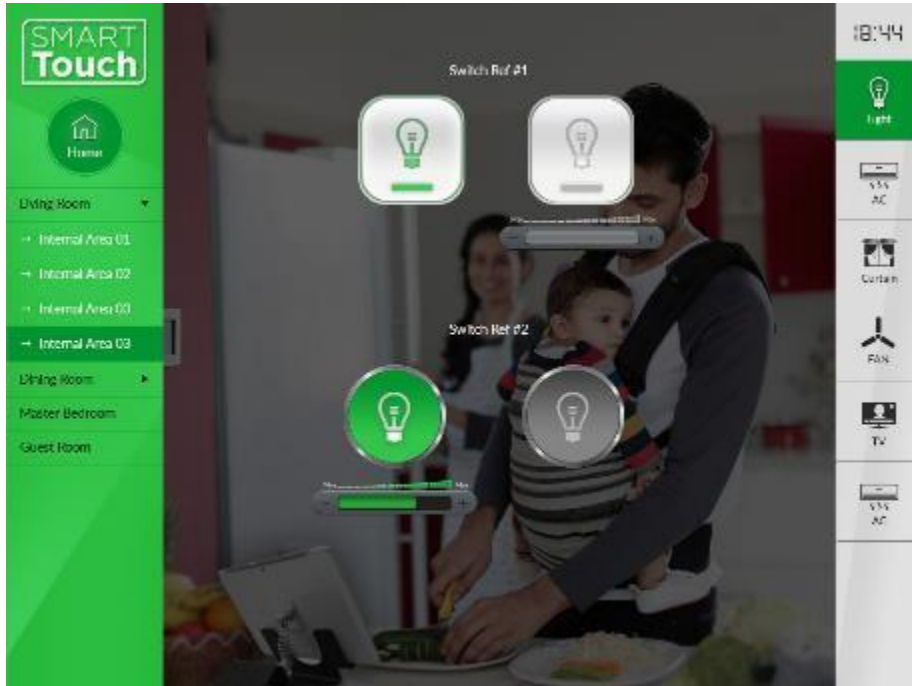

Key Features of Remote

- IR (Infra-Red) operation
- Master On/Off Button
- Fan Icon : On/Off
- Up & Down Arrows for Fan Speed Regulation
- Lights : 6 Circuits (On/Off)
- AC : 2 circuits (On/Off)
- Dimmer : 1 Circuits (Dim Up/Down)
- Motorized Curtain : 1 Curtain (Open/Close)

Easy to use App

The smarter way to control your room

SMART Touch

Now you can control your fans and lights with just one touch using a remote and also with our android/iOS app. Smart Touch is the definitive smart room solution which enhances aesthetics and provides comfort and convenience.

Here's a quick look at what makes Smart Touch the perfect solution for smart room control.

AESTHETICS

Stylish looking panels and trendy touch screen switches

COMFORT

Single feather touch switching with IR remote operations

INTELLIGENT

An app-based solution

AFFORDABLE

Easily available at low prices

Life Is On | Schneider Electric

Product features:

- > Soft switching with a single & feather touch operation
- > Remote control operation with IR technology
- > In-built Wi-Fi for upgradation to app-based operations
- > Illuminated iconic representation
- > Dual color indication on the switch, easy to identify the device 'ON' or 'OFF' condition
- > Auto dimming of the backlight illumination for a cool display
- > Easy installation, no separate wiring required
- > No mechanical wear & tear as compared to normal switches
- > Intelligent switches with last status recall

Technical Specifications:

Input Voltage	: 90 to 270 VAC 50 Hz.
Working Temp	: 0 to 50°C.
Operating Humidity	: 20% to 85% RH non-condensing.
Rated Load	: Tungsten and Halogen light 500W.
Capacitive Load	: LED and CFL 100W.
Inductive Load	: Fan 65W.
Service life	: 50,000 operations.
